

LINEAR REGRESSION EQUATION

$$U \text{ ICPMS, in } \mu\text{g/L} = .246 + .92 * U \text{ cICP-MS, in } \mu\text{g/L}; R^2 = .999$$

Confidence Intervals U ICPMS, in µg/L vs. U cICP-MS, in µg/L

	Coefficient	95% Lower	95% Upper
Intercept	.246	.089	.403
U cICP-MS, in µg/L	.920	.905	.935
